Dr. Pramod Sawant,
Hon'ble Chief Minister of Goa

Shri Nilkanth Halarnkar
Hon'ble Minister for Fisheries,
Animal Husbandry and Veterinary Services,
Factories and Boilers

Dates :

10th – 12th April 2025

Venue :

Dr. Shyama Prasad Mukherjee
Indoor Stadium Bambolim, Goa

Time :

10.00 am to 06.00 pm

OVERVIEW :

Goa is a coastal state located in Western India. Goa is accessible through sea-route and has a presence of one of the 12 major ports in India at Mormugao. The state is also well-connected through air, rail and road routes.

Goa has a strong presence in the mining, fishing, agriculture and tourism sectors. Tourism is the largest segment in the services sector in Goa.

Goa has also emerged as a manufacturing base for several leading companies in areas such as fertilisers, tyres and tubes, cement, electrical machinery, fish-net-making machines, automatic washing machines, printed circuit boards, pharmaceuticals, pharmaceutical machinery and shipbuilding. Cashew processing has also been a traditional industry in the state.

Monitoring safety, health, welfare and working conditions is not limited to the manufacturing sector only but is also equally applicable to the other sectors such as construction, hospitality, healthcare, mining, retail, education and Government.

Considering the above and with a view to provide a dynamic platform for disseminating vital knowledge and best practices in the field of occupational safety and health through comprehensive seminar & panel discussions and an expo to showcase the latest in safety technologies, equipment and solutions by the exhibitors participating from India and so also to advocate for policy and regulatory improvements, Inspectorate of Factories and Boilers, Government of Goa is organising three days **1st Goa Occupational Safety and Health Summit, 2025** from 10th to 12th April, 2025 at Dr. Shyama Prasad Mukherjee Indoor Stadium, Bambolim, Goa.

KEY OBJECTIVE:

Showcase | Connect | Innovate

- Enhance Public Safety and Awareness
- Improve Coordination Among Stakeholders
- Identify and Address Key Safety Challenges
- Strengthen Policy and Regulatory Framework
- Build Community Resilience and Preparedness
- Leverage Technology and Innovation
- Enhance Tourism and Economic Stability
- Promote a Culture of Safety
- Facilitate Knowledge Sharing and Learning
- Showcase Government Commitment to Safety

Event Highlights

Keynote Addresses by industry pioneers and safety experts

Panel Discussions & Technical Sessions on critical safety & health topics

Live Demonstrations of safety equipment and technologies

B2B Meetings & Networking with industry professionals

"Award of Passing Certificates to Doctors having successfully completed Associate Fellow of Industrial Health Training Programme"

EXHIBITORS PROFILE:

- Personal Protective Equipment's
- Fall Protection Systems
- Fire Safety Equipment's and Systems
- Construction Safety Equipment's
- Electrical Safety Equipment's and Systems
- Emergency Preparedness
- Disaster Management
- Gas Detection Systems
- Confined Space Safety
- Process Safety
- Road Safety
- OHS Management Systems
- OHS Management Certifications
- Pollution Control Equipment's and Systems
- Safety and Health Training and Consultancy
- First Aid & Rescue Products
- Lock Out & Tag Out Systems
- Safety Storage & Containment
- Spill Control Solutions
- Automated External Defibrillators (AED) & CPR Manikins
- Ergonomic Solutions
- Industrial Hygiene Equipment's
- Marine Safety Equipment's
- Safety Signs & Safety Posters

Why Exhibit ?

Expand Your Reach :

Engage with industry experts, decision-makers, and potential clients from various sectors.

Showcase Innovation :

Demonstrate your latest products, solutions, and safety technologies to a targeted audience.

Networking Opportunities :

Build strategic partnerships and explore new business prospects.

Industry Insights :

Gain valuable knowledge from keynote sessions and panel discussions led by industry leaders.

Government & Policy Engagement :

Connect with regulators, safety authorities, and policymakers to understand upcoming trends and regulations.

SUMMIT-2025 :

3 DAY CONFERENCE

KEY POINTS TO BE DISCUSSED

- Elevating Safety Performance with Behavioral Based Approaches: Going Beyond Risk Controls
- Recent advances in Occupational Health & Safety in Healthcare workers
- AI use in safety monitoring and future of safety in Digitalised world - Preventing Accident through use of technology
- First response and triage in disaster management in manufacturing Industry
- Inclusive Ergonomics: Designing for All
- The Impact of Climate Change on Occupational Health: Preparing for Heat Stress and Other Emerging Risks
